Lyrics: Her burning village, hänen palava kylänsä, lowland, singing secrets underground, fore-sisters cinders,
sisarten tuhkat laulavat salaisuuksia maan alta, a long way home, fire in fog,
only the will of life and mind, birth blood on dry grass, mother tongue, oh the mind is following, stolen memory,
granite dust and braided hands, parched lands, gray plain, blood flats,
kill the father, the prairie, the scythe, fires burning, sinä naurat, viimeisen kerran, sillä vaimot joita he naivat,
ovat kyllästyneet,
olemaan kiitollisia houkan sydäimestään, kuolleet sydämet, witches bones, the trees wave in warning, varokaa,
kuuset uivat sisään, noidan valkoiset luut,
Labrys, a gift, a house spinning in clattering empty space, black hole reverse a reversal, strix double helix,
chalk circle, throat decoration, a darkened mill, through the floorboards,
to the underneath, I can see this, running black water, body and instinct with symbolic service,
Aswan obelisk, ore and banded iron, Vinča Ār ké mág, coded song, tjet, chá hár kháhár, sehrhá ostokhán.
